

The background of the entire image is a rich, textured pattern in shades of deep blue and gold. It features intricate, symmetrical designs that resemble traditional Venetian or Baroque motifs, possibly inspired by the 'Scandalo' pattern. The pattern includes stylized floral elements, scrolls, and leaf-like shapes, all rendered in a way that gives it a three-dimensional, almost embossed appearance. The gold elements are more prominent, creating a sense of luxury and elegance.

The Velvet Legacy

The roots of the Bevilacqua family in the textile world date back to 1499. The actual Tessitura was founded by Luigi Bevilacqua in 1875, after recovering looms and machines that were once used by the Silk Guild of the Republic of Venice, buying the building on Fondamenta San Lorenzo in the Sestiere Castello, and converting it into the seat of his new weaving mill.

Bevilacqua's Weaving Mill thus resumed from where antique Italian fabrics had left off. By saving a number of 18th-century looms he created a turning point between the crisis and rebirth of Venetian textile tradition.

The showroom is located on the Grand Canal and visitors may see the original looms and the historical archive of hundred of patterns stored on paper schemes.
